Motivated statement

The Nomination Committee has held three meetings and has had additional contacts via e-mail and telephone. As part of the committee work, interviews with each board member, the CEO and the CFO have been carried out in order to assess the board work. The main focus of the assessment has been board procedures, collaboration climate and the competence within real estate

investments and property development. It has been concluded that the overall organization, participation level and performance of the board have been working well. It is also the view of the committee that the current composition and size of the board is suitable, considering the current direction of the company.

The nomination committee believes that the board in its current form represents a broad competence with both real estate and financial expertise as well as broad knowledge of international circumstances and markets, not least in Eastern Europe. In the process of preparing the proposal of the board of directors, the nomination committee has considered requirements on the board in terms of competence, diversity, composition and independence based on the company's international operations, governance and control, and its strategy with focus on real estate investments and property development in the Baltic region.

Furthermore, it is the Nomination Committee's view that it is important to strive for diversity in the Board and to actively search for suitable members among both women and men. Given the proposal, women will constitute 40 percent of the Board which meets the target set by the Swedish Corporate Governance Board. The nomination committee has, as diversity policy, applied rule 4.1 in the Swedish Corporate Governance Code.

The Nomination Committee's proposal means that the Board consists of five (5) ordinary members.

Liselotte Hjorth, Christian Hermelin, Ylva Sarby Westman and Peter Wågström are regarded as independent in relation to the Company and its management, as well as the Company's larger owners. Peter Elam Håkansson is regarded as dependent in relation to the larger shareholders based on the fact that East Capital together with its related parties is a major shareholder of the Company.
