

# Eastnine resumes support for hospital staff and restaurants

**Eastnine resumes support for hospital staff in Vilnius caring for patients infected with Covid-19. The food is delivered by three restaurants that are tenants at Eastnine.**

The second pandemic wave that began in late autumn 2020 hit Lithuania much harder than the first in spring 2020. Eastnine, which has a strong focus on sustainability and works to be a responsible player not only in the real estate market but also in the markets in which the company operates, has therefore resumed deliveries of meals to healthcare professionals treating patients with Covid-19 at a Vilnius hospital.

“Eastnine is a long-term player and strives to make a positive impression in the cities where we have established ourselves. This is one way to show it”, says Kestutis Sasnauskas, CEO of Eastnine.

Deliveries from three restaurants in Eastnine's 3Bures properties will begin today and are expected to last until mid-March. In total, it is estimated that approximately 9,200 meals will be delivered. Thereafter, the effort and any future needs will be evaluated.
